

## **2050 National Security Council**

### **1. What is your past Model UN experience?**

I took up model UN as a semester long academic class last year, and we attended BOSMUN, where I was in UNCSW, and DARTMUN where I was in a WWII crisis committee.

### **2. What do you think will cause the next major global conflict?**

I think it will be caused by competition over dwindling resources, fossil fuels in particular.

### **3. What is your favorite utopian future and why?**

My favorite utopia is a liberal, socialist international community, with a vibrant and diverse, yet accepting and integrated culture.

### **4. What is your favorite dystopian future and why?**

A world run by corporations where everything revolves around making a profit rather than furthering mankind.

### **5. Is it easier to imagine the end of the world or the end of capitalism? Briefly imagine one of them.**

The end of capitalism is far more enjoyable to imagine, as I find the corporate ways of modern capitalism to be extremely flawed, but the way the world has built a dependence of capitalism makes its end seem far harder to imagine than the end of the world.

### **6. Where will you be in 2050?**

Traveling the world and experiencing different cultures.
